

Vertical Growing Solution

Use Canadian made Gardien the Protector Trellis Netting to support your climbing plants and vines. Install this white knitted polypropylene netting to increase your yield per square foot while maximizing valuable growing space. The 6.5" square mesh pattern allows for efficient inspection and harvesting. This soft ultraviolet protected netting is safe for even the most delicate plants. Grow with Gardien Trellis Netting and enjoy cleaner produce while reducing the amount of ground rot on valuable produce.
